*The problem of present-day medicine is that over centuries Western Scientific thought has been concentrated around a chemical model of organization and function of molecules, tissues and organs in our body. However, this biochemical model should be expanded to deeper levels by including electromagnetic and quantum processes that play a crucial role in self-organization of living nature.*

**Carpal Tunnel Syndrome is the #1 reported medical problem facing healthcare providers today.** CTS accounts for about 65% of all work-related injuries. The American Academy of Orthopedic Surgeons estimate Carpal Tunnel Syndrome costs patients and insurance companies over \$27 Billion dollars annually. Cold Laser Therapy offers carpal tunnel patients an effective alternative to drugs and invasive treatments. Using the Terraquants' deep penetrating pulsed laser technology, practitioners can strategically target the inflamed tissue of the medial nerve and surrounding areas, providing relief to the debilitating pain and discomfort associated with Carpal Tunnel Syndrome. **Treatment with low-level laser therapy (LLLT)** was shown effective in treating **Carpal Tunnel Syndrome** pain. Another study, significant decreases in McGill Pain Questionnaire scores, median nerve sensory latency, and Phalen and Tinel signs were observed after treatment series with Low Level Laser Therapy. Patients could perform their previous work (computer typist, handyman) and were stable for 1 to 3 years.

Over 75 Trillion cells in a human body all need electrons to communicate with each other. Laser light delivers these required electrons and photons (little energy packets) directly to the cells and enhances both their ability to communicate with each other and their ability to produce ATP (Adenosine TriPhosphate). Increased energy to the cells increases cellular metabolism and the production of enzymes that reduce inflammation.

Cold lasers are extremely safe because the laser light/radiation has no effect on healthy cells. Yet, worldwide research, tests and studies have shown conclusively that cold laser light restores balance, energy and nutrient, oxygen permeability to sick cells. Thus resulting in exelerated healing, pain relief and tissue regeneration. This healing is additionally supported by the lasers' ability to cause key enzymes and hormones to be secreted, which reduces or elliminates inflammation and pain.

**Of all the Low Level Laser Products out there, I believe that the Terraquant has the greatest ability to help the most people. It is extremely effective, affordable and versatile in its output of healing technologies. It is easy to use by both practitioners and patients alike.**

**Laser healing with healing lasers is the way of the future right here, right now.**

**Osmosis, a scientific fact taught in all grade and high school science classes, states that no nutrient can transfer across the depolarized membrane of an injured cell. One of the most important functions of low level laser therapy is to re-polarize sick and injured cellular membranes. This allows for essential nutrients and oxygen to transfer from the blood into the cell. Research has shown that low level laser therapy can increase cellular ATP (body fuel) by as much as 150%.**

The TerraQuant low level lasers are easy to use and produce results fast. The Terra Quant Laser makes

laser healing easy, fun, safe and affordable. No surgery, no pain, no medications, no undesirable side effects. Terraquant lasers are more effective, more versatile and significantly more affordable than most other lasers that we have tested. Plus, Terra Quant Lasers utilize Quantum Medicine by combining a powerful combination of healing laser technologies including: Infrared Radiation (860-960 nm), Pulsed Laser Light, Red Light Radiation (600 to 960 nm), Permanent Magnet Induction (25-45 mT) and Hertz Frequencies from 5-3000 Hz/sec., all precision controlled by the built in Mini-Computer. The User can choose between manual mode or any of the 4 proven programs that are preset for treatment of numerous conditions including: acute and chronic pain, wounds, burns, arthritis, inflammation, anti-aging, cold sores, wrinkles, acne, cosmetics and much more.

## Quantum Medicine and Terra Quant

By Prof. Samuel Edelstein Quantum Medicine (QM) is a medical methodology which incorporates therapeutic effects of different electromagnetic fields, such as pulse laser radiance, broadband infrared radiance, visible red light and static magnetic field, in order to transform living cells from an unstable state of illness into a stable healthy state. One striking common denominator in all the clinical cases that QM is effective is inflammation. The sequence of events at

the tissue level which leads to the pathological state of inflammation is reduced micro-circulation with changes in blood supply to the cells, resulting in ischemic injury.

Any influence that will be able to shorten the duration of the ischemic state will have beneficial effect on the course of the disease and the accompanying pain. The radiances mentioned above are capable, within a few hours after irradiation of the painful tissue, to improve the supply of oxygen to the hypoxic cells, to improve the microcirculation and to remove toxic waste products from the site. The tissue is rejuvenated and the pains disappear. All the above is achieved by chemical processes in the cells that are responsive to bio-photons. The molecules in the cells that are capable to respond, called chromophores, are porphyrines, enzymes with antioxidant properties, mitochondrial cytochromes and molecules of oxygen. Their response will result in renewed energy production (ATP) and restoration of all impaired cellular functions.

Terra Quant is the only device available today, which combines together pulse laser radiation, pulsating infrared radiation, visible red light and static magnetic field providing their synergic therapeutic effects. Incorporating all these radiances in one apparatus enables one to achieve rapid and efficient clinical effect within a relatively short time.

**Quantum Medicine (QM) is one of the most promising directions of contemporary medicine.**

**It incorporates the therapeutic effects of different electromagnetic fields, including:**

- pulse laser radiance
- broadband infrared radiance
- visible red light
- static magnetic field

The radiances mentioned above are capable, within a few hours after irradiation of the painful tissue, to improve the supply of oxygen and nutrients to the hypoxic cell, to improve the microcirculation and to remove toxic waste products from the site. The tissue is rejuvenated and the pain disappears.

**Quantum Medicine encompasses and compliments all elements of human health care:** prophylaxis, diagnosis, treatment and rehabilitation. The objective is to improve the patients general well-being. **Millions of patients in over 30 countries have already experienced the benefits of Quantum Medicine.** It has helped thousands to avoid expensive, high risk, surgical operations and is used by many professional athletes.

**QM is particularly effective in situations where cell tissue has become inflamed.** Inflammation of cell tissue is caused by reduced microcirculation, which changes the quantity of blood supply to the cells, resulting in ischemic injury. Any influence that can shorten the duration of the ischemic state will have a beneficial effect on the course of the disease and the accompanying pain.

**Quantum Medicine improves microcirculation, which removes toxic waste products from the site, and improves the supply of oxygen to the hypoxic cells, all within a few hours of irradiation of the painful tissue.** As a result, the tissue is rejuvenated and the pain disappears. These outcomes are achieved through chemical processes in the cells that are responsive to bio-photons, leading to renewed energy production (ATP) and restoration of all impaired cellular functions. QM is a non-invasive, drug-free, pain-free and surgery-free therapy that is beginning to revolutionize healing in modern medicine. It has been found to reverse existing diseases and greatly improve health.

#### **New Improved TerraQuant Laser PRO v.5**

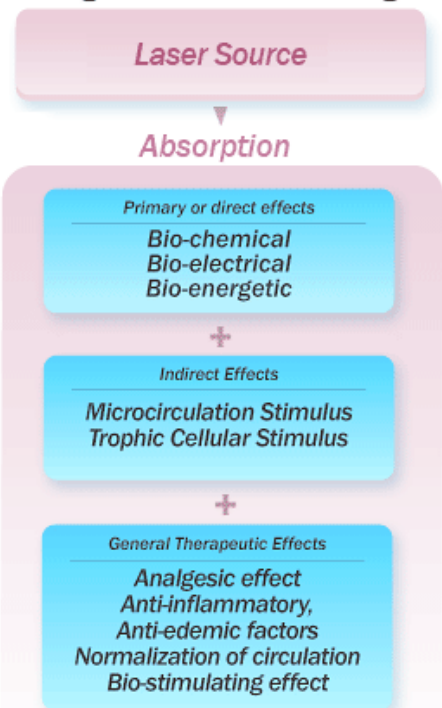

TerraQuant v.5 offers multiple treatment options (Pain, Chronic Pain, Skin & Wound care, Anti-Aging & Cosmetics, and Specific Treatment). Included with the TerraQuant Laser Pro v.5 is a carrying case, instruction manual, 110 volt AC adapter, and a 2-year warranty. To use, place the 6" long, 1" dia hand-held emitter directly on the treatment area, or apply treatment by moving the emitter in a circular motion around the affected area. Treatments can be performed as often as necessary. Standard treatments last from 5 to 15 minutes.

## How Does The Terra Quant Laser Work?

**TerraQuant is very easy to use.** Its state-of-the-art menu-prompted console offers up to six programs, five of which are preset programs with selectable parameters chosen from the user manual. The sixth is a manual mode, personalized program defined by the therapist or the individual using it on the basis of instructions in the user manual. The Terra Quant comes with a well written, easy to understand Operator Manual that is filled with user friendly protocols for immediate application.

Following is an overview of the treatment programs plus an overview of the biological effects.

<p><b>TerraQuant Laser Pro system v.5 delivers the following 5 Pre-Programmed Modes, plus a 6th user defined mode, allowing for a comprehensive selection of treatment options with the touch of a button. Cold laser therapy doesn't get much easier than this.</b></p>						<p><b>Biological Effects of Laser Light</b></p> 	
<b>Program Mode</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>

In Manual Mode, the unit is adjustable for pulse frequency of the red Laser light and the Infrared at 5 Hz, 50 Hz, 1000 Hz, 3000 Hz and variable pulse, that alternates between the four pulse rates. Intensity of the Red Laser and Infrared Radiation has three levels of adjustment (OFF - 50 percent intensity and 100 percent intensity).

### ***Ease of use, Versatility and Proven Results - Fast.***

Significant reduction of pain and inflammation can be seen in 1 to 15 treatment procedures, depending on the type of condition being treated. Treatments can be performed once or twice daily or every other day. Terra Quant therapy is easily and safely performed by holding the emitter over the area of concern or moving it in a circular motion over the area.

**Designed for Professional and Home Use**

TerraQuant is very easy to use and can be used without medical supervision at home or by a health professional or therapist at a clinic or hospital.

**According to the manufacturer and their extensive worldwide research, there are numerous conditions that Respond Well to TerraQuant use. Use of TerraQuant increases the speed, quality and strength of cell tissue repair, increases blood supply to the affected area, stimulates the immune system, stimulates nerve function, develops collagen and muscle tissue, helps generate new healthy cells and tissue and promotes faster wound healing and clot formation. This method can even provide significant results for the elderly, or patients suffering from long-term illness or cell damage, even in cases that were previously considered to be hopeless. It is important to emphasize that therapy with TerraQuant does not exclude other conventional medical treatment. On the contrary, combining it with other treatment may result in rapid recovery and may enable the reduction in doses of conventional drug consumption.
